

BAUER

FOR A GREEN WORLD

Plug & Play Separator System

Plug it in – get set – go!

- Flexible, compact design incorporates all components in a small unit
- Disconnect, load, and you're off to the next application
- Multiple uses in agriculture, industry and biogas plants
- Low energy requirement
- Very high dry matter content
- Optimal price-performance ratio
- Long service life due to carefully matched components

BAUER – the technological leader in separation of liquids and solids

Compact – Mobile – Efficient

The BAUER Plug & Play Separator System is a compact piece of equipment which incorporates all components in a single unit, including the feeder pump, tubing and electronic controls. A space saving miracle with enormous output-just plug it in and the efficient separation of liquids and solids can begin at once.

The BAUER Plug & Play Separator System is a mobile unit that can be positioned quickly and easily, and is operational after just a few steps.

The individual components are perfectly matched to one another, ensuring high stability and a long service life.

Equipment

Separator, eccentric spiral pump, centrifugal discharge pump, electronic control unit, tubing, cables, mounted on a sturdy frame with forklift device and/or on a transport cart with tandem axle.

Application

- With cattle slurry for the production of high-quality bedding material
- With pig slurry for optimal treatment
- With biogas plants for the production of substrate
- In the food industry for optimal separation of waste
